A comparison of photography of [REDACTED] reveals that a considerable amount of new construction is taking place at Aircraft Assembly Plant No 135, Kharkov, USSR.

25X1

25X1

Since [REDACTED] a workshop, 2 taxiways, a parking apron, and several small buildings have been completed; structures nearing completion are a final assembly/checkout building, a multistory laboratory/administration building, and a U-shaped probable workshop. Two large probable assembly buildings are in an early stage of construction at the north end of the plant area. One of these large probable assembly buildings has a deep excavation on the side where a high-bay section of the building would be erected; this excavation could indicate preparations for the installation of special equipment.

[REDACTED] 2 COOKPOT and 1 COLT were observed at the flyaway field.
